

Statement

- I. Thank you for purchasing the S05 Waterproof Digital Audio Player produced by AGPTek. Before using the player, please read the manual carefully. If you have any question or any idea about this product, please email support@agptek.com. We look forward to hearing from you!
- II. We strongly suggest you to back up the data in case there is accident happening on the Digital Audio Player. We are afraid that we could not bear responsibilities for data loss due to mistaken operation or hardware damage.
- III. Users are neither allowed to repair the machine nor to the open the rear cover of the machine by themselves, or else we won't be able to provide you with regular after-sale service.
- IV. Manufacturers of Flash machine usually calculate the capacity by the scale 1000, i.e. 1K=1000byte, 1M=1000K and 1G=1000M. The operation system equalizes 1024 k to 1M and the formatted report capacity will be less than the nominal capacity. System files would occupy a bit of space under different systems.
